

## Our Process

We Work For You.

Our goal is to make your space work for you, too. After you schedule a complimentary consultation, we will come to your home, assess your space, and learn about your needs. When we visit, we will show you different options for your space, keeping your specific storage needs as the priority. Your budget will always be taken into consideration, and we will prepare a design quote for you.

It's a privilege to be invited to work for you, and it comes with responsibility. You can count on us throughout the process to help you find the solution that works best for you.

Installation

Quick. Courteous. Complete.

Our professional and respectful service is an integral part of what you can expect from Holiday Custom Closets. We will walk with you through the entire process of assessing, designing and installing a storage solution.

**Step 1** We will schedule a time for your complimentary consultation. We'll visit your place to discuss your lifestyle, needs and desired outcome. We will help you assess what is important to you and how to create the best use of your space.

**Step 2** We take accurate measurements and show you a variety of options for your space, taking your needs and goals into consideration. You can choose from a number of styles, colors, options, accessories and hardware.

**Step 3** We prepare a design and quote for you to review.

**Step 4** Once the design details and pricing have been approved, an installation appointment is scheduled. A 50% deposit is due with the signed quote to schedule an appointment.

**Step 5** We install the storage solution to our exacting specifications, with minimal disruption to your home and your life.
